REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: applicants' arguments are convincing, see remarks filed on April 09, 2009. The prior art, including the closest prior art de Haut et al., US patent No. 6,207,014, does not teach nor fairly suggested a tissue impregnated with a composition as it is now claimed, specially a tissue with a wax ester amount from about 70-80% and having a droplet size such that it penetrates and uniformly distributes/disperses in the paper substrate. Note also that in the way that the claims are/were amended the transitional phrase "consisting essentially of" clearly exclude the fatty acid alcohols of de Haut et al, an essential components of the cited reference, since the those alcohols are chosen so that they do not penetrate the surface of the web¹. Note also that the method clearly produces a paper which is different from the prior art, including the closest prior art, i.e., de Haut et al, since the paper contains a composition distributed uniformly over the thickness of the paper that defines over the prior art and therefore, the product by process claims are also novel and non-obvious products.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to José A. Fortuna whose telephone number is 571-272-1188. The examiner can normally be reached on 9:30-6:00.

¹ Some penetration would be expected, especially for porous surfaces such as papers, but not the uniformly dispersion of the substance throughout the thickness of the paper.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven P. Griffin can be reached on 571-272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
